Dear Jim,

I finally finished up the cosmetic restoration of our family's 1959 4E 2 truck. My father purchased it new and I purchased it from him in 1980. The truck currently has a total of 27,900 original miles. The restoration would not have been possible without you folks. I can't thank you enough for all the assistance and your parts girls were outstanding.

Thanks again.

L. W. Dunn

Thanks for your business!
