OIL ADDITIVE

801847 ZDDPlus avoid metal to metal wear on your engine. ZDDPlus After 70+ years of trouble-free, metal-to-metal engine protection, the EPA is forcing ZDDP (Zinc Dialkyl Dithio Phosphate +zinc and phosphorus) from domestic motor oils. If your engine was designed prior to the the 1990's the non-roller lifters require the ZDDP in the motor oil to avoid premature deterioration! Don't let the lifters run metal-to-metal. Keep ZDDP, via ZDDPlus to every 4- to 5- quart oil change. **\$9.95 ea.**

801847X10 Case of 10 ZDDP. **\$80.00 ea.**
